MEMORANDUM

TO: Water Right files 02-7468 & 02-10327

FROM: Glen Gardiner

DATE: September 6, 2012

SUBJECT: Diversion Rate adjustment on WR 2-10327

At the time of licensing water right 2-10327, it was not apparent a second water right permit existed with an earlier priority date. Within the 14 day period of licensing, the second permit 2-7468 was identified which will allow a Diversion to Storage of 0.20 cfs with a priority date of December 4, 2005. Therefore, the Diversion Rate of 0.41 cfs on water right 2-10327 will be reduced by the 0.20 cfs leaving a final diversion rate of 0.21 cfs. The priority date of water right 2-10327 is December 20, 2005.
