

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESIdent. No. 63-33649*Amended***APPLICATION FOR PERMIT***Amended*

To appropriate the public waters of the State of Idaho

1. Name of applicant(s) John McCain Phone 208-936-1510
Name connector (check one): ☐ and ☐ or ☐ and/orMailing address: PO Box 1623 City NampaState ID Zip 83653 Email: mccainjp@gmail.com2. Source of water supply ground water which is a tributary of n/a

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
3N	3W	12		SW	SE		Canyon	ground water	proposed
3N	3W	12		SW	SE		Canyon	ground water	existing

4. Water will be used for the following purposes:

Amount .09 for irrigation purposes from Mar 01 to Nov 15 (both dates inclusive)
(cfs or acre-feet per year)Amount .03 for domestic purposes from Jan 01 to Dec 31 (both dates inclusive)
(cfs or acre-feet per year)Amount .03 for aesthetic purposes from Jan 01 to Dec 31 (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) .09 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. ground water, new well. Water to be delivered to cistern via underground pipe. Cistern size not to exceed 9ft diameter and 4 ft depth. Used for a recirculating fountain.

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ Noc. Proposed well diameter is 8 inches; proposed depth of well is 100 feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ Noe. If well is already drilled, when? 1973; drilling firm unknown;Well was drilled for (well owner) unknown; Drilling Permit No. unknown.

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. n/ab. Stockwatering; list number and kind of livestock. n/ac. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. n/ad. Domestic; show number of households 1e. Other; describe fully. Fire suppression.

WATER RESOURCES

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
3N	3W	12															D		
3N	3W	12															J		
3N	3W	12															3		3

Total number of acres to be irrigated: 3

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Water rights exist from Pioneer irrigation district entitling 3 inches of water per year. This well is intended to be used in conjunction with existing well for aesthetic, domestic, and irrigation purposes
10. a. Who owns the property at the point of diversion? John McCain
- b. Who owns the land to be irrigated or place of use? John McCain
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: na. Water Bearing Zone new well is zero to 80ft. Bearing zone for existing well is zero to 80ft.
11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Drill an 8 inch cased well at a depth of one hundred feet, to be the source feeding a fountain which will function both as an aesthetic feature as well as a reservoir for irrigation of subject property. Flow of same not to exceed .09 cfs as requested by permit. Well will also function as single family dwelling back up fresh water supply. Reason for request is inability to receive diversion from local source due to damage and or removal of delivery system sections, and the possible removal of entire delivery system due to road widening of State Highway 55 South. Existing well is 40 years in service and questions as to it's reliability have arisen from neighbors familiar with the property. Well driller DPWD
12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 63-33649

Dear Mr. McCain:

We are in the process of reviewing the above referenced application for permit. Before we can complete this process we need additional information concerning this proposal. We are returning the original application to you for completion and corrections.

In regard to your irrigation use, you have filed for 0.03 cfs for the irrigation of 3 acres. We recommend 0.03 cfs for each acre of land (when the system is for 5 acres or less) so you may want to increase this amount of water for this use to 0.09 cfs. We also note that you did not include a season of use for irrigation purposes. We recommend the standard season of March 1 through November 15 for this area.

You have also applied for an aesthetic use of water for your fountain and pond. We need to know the proposed dimensions of the pond in order to determine if you need to include a storage parameter under this proposal. There is also no season of use for this use which we assume would be year round but you need to complete this area of the application form.

Under item 8 of this application, you need to put the number of acres in the box for irrigation place of use rather than "IRR". The "Totals" column is for the number of acres in each section of land, not the amount of water being filed on.

We need to know which water bearing zone you plan to appropriate under this application. The water bearing zone is the area in the well that your pump will be placed and water is proposed to be drawn from. Please advise us of this information by completing this remark:

Water bearing zone to be appropriated is from _____ to _____ feet.

Under item 9 of this application form it appears that you plan to use this well for the aesthetic pond but you may also use an existing well in conjunction with this proposal. If this is the case, you may want to add the existing well to this application so both wells may be used for this system when it is completed. Under Idaho law, a domestic well

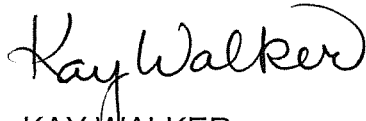

may be used for irrigation of up to ½ acre of lawn and garden. Anything over ½ acre of irrigation requires a valid water right.

On the close up map you attached to your application form, we would like you to pinpoint the location of the proposed well. Also, if you plan to include the existing well, you should pinpoint that location too.

Please submit the application form and map within 30 days for processing to continue. You may seek additional time to provide the information by making a written request to delay or interrupt processing. A response including the requested information, or a request for more time to seek the information, must be received within the 30 days. The application will be voided without a timely reply.

If you have any questions or concerns regarding this mater, please do not hesitate to contact me at 334-2190.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with the first name "Kay" and last name "Walker" clearly distinguishable.

KAY WALKER
Sr. Water Resource Agent
