Hi Elise,

Thanks for the clarification. I put your place of use outline in our spatial data this morning and it's 16 acres as I've drawn it, so I'll issue the rental for 16 acres for a partial season. I was just waiting on your confirmation and the original application before moving forward. Thanks!

Monica

Hi Monica,

Sorry for the confusion. I have 30 acres of 1881 so that is where the numbers in the chart came from. However, I am only irrigating 14 acres approximately. My mistake in filling out the form, sorry.

I am in the process of donating the remaining acreage to the water bank. I think you should have the application any day now if you don't already.

Hope this all makes sense now.

Best, Elise

Hi Elise,

Thanks for the heads-up. I talked with Kevin about your rental this morning. I am a little confused about your acreage amount. In the table, it looks like you've described 30 acres (20 in the NENE and then 10 in the SENE), but you only ask for 14 acres. Can you clarify? Thanks!

Monica

Hello Monica,

Kevin Lakey (copied here) gave me your contact info and suggested I email my application to you as well as send in the hard copy, in the hopes it might speed the rental process. My water was shut off a few weeks ago and I'd like to get some water back on the ground as soon as possible. I've attached the application and an aerial photo showing the point of use and point of diversion. I'm putting the hard copies of both in the mail today.

Please let me know what else you need from me.

Many thanks,
Elise Lufkin
