

MEMORANDUM

Date: 8/22/2012

To: Water Right 25-12776

From: Danni Smith

Subject: POD

Pam Skaggs was contacted by Gary Ball from Fish & Wildlife Services (Gary_Ball@fws.gov) regarding possible error of POD in Grays Lake R43E. He indicated POD should be near the POU of claim in R44E.

After researching it appears the original claimant did claim R43E, and the Director's Report as filed reflects the claimed range. It also appears the claimant Bernard Lindstrom made the mistake on the original claim, but IDWR does not have enough information to correct the POD without input from the claimant.

The current owner of parcels RP04WS44E327801, RP04S44E317202, and RP04S44E18412 (tax lot info from 4/7/2011) is:

Mosquito Ranch LLC
451 Westfield Rd
Alpine UT 84004

No ownership change has been filed with IDWR.

| Perhaps -FWS would be willing to contact the current owner and suggest they file a change of ownership. Also, FWS could tell the current owner they should file a motion to set aside the partial decree as well as a -motion to amend their claim with the SRBA to correct the POD. The owner needs to contact the court to correct the error since IDWR does not have the necessary information to file an error correction form with the court. .
