Subject: *Water Bank Rental Application*

Dear Nick,

Enclosed on behalf of Frisby Farms Inc. is an Application to Rent Water from the Idaho Water Supply Bank for irrigation of 17 acres during the 2012 irrigation season. The source of water is ground water from an existing irrigation well.

Applicant is currently leasing this property only through the 2012 irrigation. The adjacent pivot west of the 17 acres is irrigated with surface water from Black Canyon Irrigation District.

Please let me know if there are any questions. Thanks Nick.

Sincerely,

Lori Graves
Water Rights Specialist
