RE: Water Right Permit No. 2-07199E

Dear Mr. and Mrs. Pollock:

The Department of Water Resources is reviewing the above referenced permit prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on this permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, the permit must be amended to depict the water use as it was actually developed. Based on the examiner's report, the point of diversion and place of use were developed differently than described on the permit. We realize that you are not the permit holders of record for this right but that you do have a possessory interest in the property. We can accept your signature on the enclosed amendment form if you wish to sign it and submit it with the filing fee. After the license is issued, you can file a "Notice of Change of Water Right Ownership" form to change the right into your names.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at 208-334-2190.

Sincerely,

KAY WALKER  
Sr. Water Resource Agent
