

Memo

Date: July 19, 2012
To: File 37-8451
From: Craig L. Saxton

RE: Summary of conversations and notes in the file

This is a summary of Chad Hersley's notes in the file:

Amber Myrick is the agent of record (attorney) for 187 Sluder Dr. LLC, found on the Secretary of State website. Chad Hersley contacted her on 6/28/12 at 344-8600. She provided contact information for Becky Erwin, Manager of 187 Sluder Dr. LLC: Phone: 208.487.2771

Chad called Becky on 6-18-2012 and left a message for her to contact him. Chad called again on 7-16-12. Becky called Chad back on back on 7-17-12 and confirmed that there is a well on her property that is separate from the well on the property to the north of her. Becky's mailing address is:

PO BOX 143
RICHFIELD ID 83349

I contacted Becky Erwin on July 18, 2012 and discussed the history of permit 37-8451 and asked her for additional information to help verify the POU, POD, use and diversion volume. She asked me to e-mail her the questions and information at shanbec@aol.com.

In our conversation she said that there is a well on her property that is used for the excavation business. The water is used to fill water trucks, pressure wash trucks, is plumbed into the domestic and shop structures. The visible green irrigated area seen in the Bing maps is the lawn around what is now a office/home/shop business and can be considered external use in connection with the commercial business.

Becky called me on July 19, 2012 and asked about the documents needed for a change of ownership. She wants the name of the water right to be in 187 Sluder Dr. LLC. she will be sending in the necessary documents and the change of ownership fee.

In addition, she confirmed that she feels that they do divert more than the 0.04 cfs paid for by the permit holder of record, and will be sending in the additional filing fee of \$75.

Contact information for Becky Erwin:
Cell: 208-309-2467
Wk: 208-788-6346
