Carter,

I sent letters to the Court (and claimants) on all of these. If they set a hearing to amend the Orders, I'll invite you.

Thanks,

Ray

Ray,

There are a total of five licenses that were reported as not claimed, but the proof of beneficial use was submitted after 11/19/1987. Those rights are:

29-7459
29-7743
75-7052
86-7025
86-7054

Ray,

We had one of these recently where we sent a letter, right? Could you use the same type of letter for this one?

Chris

Chris and Garrick,

I am going through all of the "Not claimed but required" lists to check to see if there are any additional rights that were reported as unclaimed, even though proof had been submitted after 11/19/1987.

I should have run one more check for advanced priority dates on what looked like older licenses, but I did not, and apparently several got through and were reported as unclaimed.

Chris,

I received a call from an attorney representing the City of Deary today. One of their water rights was on the unclaimed/disallowed list. I mentioned it to Carter. Carter looked and he believes it should not have been on the list. While looking into it, Carter also found another right that he thought should not have been on the list. Can you please work on a letter/filing to the court asking the court to set aside the disallowance of these rights? Carter can fill you in on the details of why it should not be on the list. The attorney representing the City of Deary is Susan Wilson (see Tuckers for address). Should probably cc her on anything filed with the court.

Thanks,
Garrick
