CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
3. The rights listed below are limited to the irrigation of a combined total of 11.5 acres in a single irrigation season. Combined Right Nos.: 37-2125, 37-458B.
4. Right Nos. 37-458B and 37-2125 are limited to a total combined diversion rate of 0.46 cfs when irrigating by furrow irrigation methods.
5. This right individually, or when combined with Right No. 37-2125, shall provide no more than .02 cfs per acre (0.23 cfs) when irrigating by sprinkler irrigation methods.
6. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use when irrigating by sprinkler irrigation methods.
7. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
8. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
9. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
10. Rights 37- 458B, and 37-2125 are limited to the irrigation of a specific 11.5 acres within the 24.6 acre place of use authorized by these rights in a single irrigation season. The specific 11.5 acres to be irrigated by the right holder shall be identified prior to use by submittal of a land list and a representative electronic shape file or by submittal of a land list and a map sufficiently detailed to allow creation of an electronic shape file to be associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 11.5 acres to be irrigated within the 24.6 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's homepage on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-736-3033.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: July 19, 2012
To: Transfer 77912 File – Mid-Valley Water Co.LLC
From: Benny Walker
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes to create a 24.6 acre permissible place of use and add a point of Re-Diversion to two surface water rights, one from Clear Creek another from an Unnamed stream. The surface water rights currently authorize a combined diversion of 0.46 cfs and the irrigation of 11.5 acres. The approximate location of the proposed permissible place of use is 2.8-3.5 miles south and 0.3-0.5 miles east of the City of Ketchum. On July 17, 2012 Corey Skinner and I visited the area of the proposed transfer to confirm points of diversion and general locations. It was determined from our site visit that the point of diversion from Clear Creek is correct as described on water right 37-458B. This location is on the west side of Highway 75, where the Clear Creek channel ends and is collected in a buried pipeline that conveys the water to the east side of the highway, towards the Comstock Ditch. The decreed point of diversion description (NESW) from the Unnamed Stream as described on water right 37-2125 is incorrect and will be corrected to the recommended point of diversion description (NWSE). Note that the point of diversion for right 37-2125 is currently linked to the recommended point of diversion description (decreed description and linked location are not the same 40-acre tract). This point of diversion location corresponds to a point on the east side of Highway 75, where water is diverted from the stream channel. In addition the re-diversion proposed by the applicant is a location on the Comstock Ditch and is not considered as a source and should not be described as a point of diversion on the water rights.

- **Authority to File:**

The application was filed by Brockway Engineering on behalf of Mid-Valley Water Co. LLC c/o The Kirk Group and was signed by George Kirk, manager. A Contribution, Assignment and Conveyance agreement was signed by all parties involved agreeing to the transfer. The rate was not affected nor the allowed acres, just the total place of use. Application indicated there was no lien holder on the property.

- **Water Right Validity:**

The 2 rights in Basin 37 have all been recently decreed in the SRBA and the records have been moved over to water rights.

- **Injury to Other Water Rights:**

None anticipated.

- **Enlargement of Use:**

None anticipated. This area is currently being organized into a measurement district and soon measurement and reporting will be required. The surface rights are within water district WD 37 so comments will be requested from the water master. A 206 map was submitted showing where the 11.5 acres will be irrigated within the 24.6 acre PPU.

- **Local Public Interest:**

No negative impacts anticipated. Application will be subject to public notice and protest.

- **Beneficial Use/Conservation of Water Resources:**

Irrigation is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
