Attachments: Amended Application.pdf; Ownership change.pdf; Transfer Map.pdf

Good Morning Bonnie;

I was doing the final review of the transfer you submitted and found an error.. Sorry..

This means I will need an amended application, I am attaching for your review. The changes are as follows:

1. Total CFS changed to .90cfs, based on re-check of acres actually owned within the place of use.
2. Total acres increased to 45, based on re-check of overlap issues.
3. Must define a 45 acre place of use within the total acres farmed.
4. The power right was pulled out of the transfer, since this is only an ownership change.

I have attached a map, an amended application and an ownership change. No additional money is due.. Please look over the map and see if you agree with what I have down for defined acreage. Also look at the application and ownership change, sign and return.

As an FYI, Craig Hill the watermaster for Soda Creek is opposing this transfer. He has submitted comments stating this right is forfeit for non-use. I believe the real issue may be the large power right, hopefully when I send him the amended application he will resubmit better comments. In looking over water-master records, they are incomplete show water to someone I can't find a right for and many, many who have rights that are not accounted for. So, I am not sure what will come of the forfeiture issue. I may need more information from you in the future.

Again, please look over the map, application and ownership change, then sign and return. If you have any questions please let me know.

Thank you,

Kerrie A Mathews
