Re: Assignment of Application for Permit

Dear Tim:

Enclosed is a copy of the Assignment of Application for Permit. Since your development is comprised of eight (8) different property owners, each property owner would own a portion of the water right to the development. Assigning a portion of the water right to each property owner would require executing eight individual Assignment of Application for Permits. However, since you have created the Jason's Landing Subdivision Homeowners Association for the development, assigning ownership of Water Right Permit 63-31562 to the Jason's Landing Subdivision Homewoners Association would eliminate the need for eight separate permit assignments, and would simplify future ownership changes within the development. By assigning the water right permit to the homeowners association, the water right will be owned by the homeowners association and not individual property owners.

Please complete the enclosed Assignment of Application for Permit for the water right permit listed above. Also, the application will need to be notarized. The cost for filing an Assignment of Application for Permit is \$25.00.

If you have any questions regarding the form, please call me anytime.

Sincerely,

A handwritten signature in black ink that reads "Rick Collingwood". The signature is written in a cursive, flowing style.

Rick Collingwood, P.E.
Water Resource Agent, Sr.
