Re: Terry Day Park

Dear Maria:

I am returning the application for amendment of permit 63-33579. Due to enlargement and injury concerns, the rate of flow cannot be increased in an amendment. However, a new permit would allow the increased flow rate.

Please consider the enclosed draft application in that regard. It adds the necessary increment of flow. The application includes duplication of storage as explained in the remarks. Water bearing zone and other details are copied from 63-33579.

If the draft application looks acceptable, please sign and return it at your convenience. The \$100 fee paid for the amendment can be applied to the replacement filing. Additional payment is not needed.

The new application can be expedited. I hope this proposed solution is helpful. Please let me know if you need more information.

Sincerely,
