Re: Idahoan Foods, LLC Glenns Ferry Facility Water rights 61-7189 and 61-2248B

Dear John,

Our firm has been assisting Idahoan Foods, LLC ("Idahoan") with their water right needs for their potato processing plants and accompanying farm ground. Idahoan owns a potato processing facility in Glenns Ferry that is currently out of operation due to economic reasons. It was last operated in August of 2007.

Industrial water rights 61-2248B and 61-7189 were both partially decreed in the Snake River Basin Adjudication in 2002.

Recognizing that the rights may face forfeiture issues at the end of a 5 year period of non-use, Idahoan submits two Applications for Extension of Time to Avoid Forfeiture of a Water Right (see enclosed). Water rights are very difficult to obtain in this area, and Idahoan desires to protect the existing rights they have for their facility.

Please contact me with any questions you may.

Respectfully,

A handwritten signature in black ink that reads "Kristin Moore". The signature is written in a cursive, flowing style.

Kristin Moore
Water Rights Analyst
