RE: Funk WSB Rental Application - 193.7 NPVR POU

Pam,

The 193.7 acre rental should only cover QQs in section 32 of 6 South 29 East. It was necessary to cover as much of this field as possible due to the constraints of the well. I did not correctly update the POU on the rental application. The total acres to be rented is correct, but not the location of the proposed POU. The correct POU of the 193.7 acres is shown in the table below.

The 220.2 acre rental covers the remaining 77.2 acre portion of acres in Sec 32 and the 143.0 acres in Sec 5 of 7 South 29 East. (See table)

I believe that the field (143 acres) located in the Sec 5 of 7 South 29 East was inadvertently included on the aerial map identifying the group of rentals that totaled 940.4 acres.

The 193.7 and 220.2 acre rental will share the same POD.
