RE: **NOTICE OF INTENT TO VOID** Water Right Permit Nos. 37-21479 and 37-21480

Dear Permit Holder(s):

On May 30, 2012, the Idaho Department of Water Resources (IDWR) sent you a letter (enclosed) in regard to permits 37-21479 and 37-21480 that authorize the use of water for 9 homes in the Magic Village Subdivision. The purpose of the letter was to acquire information regarding the distribution system that had been developed in connection with the permits.

To date, no information has been received by IDWR in this regard. In addition I have left phone messages with Mrs. Dunlop on a few occasions that went unreturned.

Permits 37-21479 and 37-21480 cannot be licensed without your cooperation. Please submit information regarding the type of motors and pumps that are used in conjunction with the two wells that provide water pursuant to the two permits. The following information would be very helpful in completing your water right licenses: horsepower, pipe size, manufacturer, pumping level, and/or discharge size for each well. In addition, if you have any engineering plans, or any other schematics that detail the distribution system that would be extremely useful.

Please submit the requested information within 30 days. If the requested information is not received within 30 days, IDWR will void your permits pursuant to Idaho Code §42-219.

Please let me know if you have any questions regarding this matter. You may contact me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
