Re: Lance Funk Rentals

Dear Mr. Van Dyke:

It is the desire of Lance Funk to cover currently planted and currently curtailed potatoe fields with rented irrigation water. Attached are two rental applications to cover a total of 430.6 acres.

The first rental application is for 220.2 acres of irrigation or 4.0/880.8 cfs/afa from a POD located at Township 07 South Range 29 East Section 5 NENWNE (ESPA Cell 84092). The rental is for the remaining portion of the 2012 irrigation season.

The water rights proposed to be utilized and the associated acre amounts for this first rental application are as follows:

29-14013	88.2 acres from Cell 96122 Idaho Water Company The lease application for this water right has been submitted to IDWR
45-2746	104 acres from Cell 84050 Simplot Accepted Lease 5/20/2005-12/31/2016
29-13892	23.3 acres from Cell 94118 Lowland Accepted Lease 3/21/2012-12/31/2016
29-2613	4.7 acres from Cell 96095 Krein Accepted Lease 5/15/2007-12/31/2012

The second rental application is for 210.4 acres of irrigation. This rental required an extra 13.0 acres to offset mitigation requirements. A total of 223.4 acres or 4.47/893.6 cfs/afa will be rented from IDWR, but only 210.4

acres will be irrigated. The POD for this rental will be Township 07 South Range 29 East Section 7 NWNWNE (ESPA Model Cell 85091). The rental application is for the remaining portion of the 2012 irrigation season.

The water rights proposed to be utilized and the associated acre amounts for this second rental application are as follows:

29-2613	15.3 acres from Cell 96095 Krein Accepted Lease 5/15/2007-12/31/2012
45-2746	95.6 acres from Cell 84050 Simplot Accepted Lease 5/20/2005-12/31/2016
35-14040	47.5 acres from Cell 94118 KBC Farms Accepted Lease 6/9/2008-11/1/2013
43-13595	43.9 acres from Cell 91069 Ward Land & Livestock Accepted Lease 7/25/1995-Indefinant
43-13597	21.1 acres from Cell 91069 Ward Land & Livestock Accepted Lease 7/25/1995-Indefinant

Water rights 43-13595 and 43-13597 have PODs in model cells 92070, 92069 and 93070 (see attached aerial maps). However, the version of the model that I have would not allow me to use any of the three model cells in my analysis. I took a conservative approach and identified model cell 91069, which is further away by distance from the Funk rental POUs, to be the location of the POD for these two water rights.

Please copy our office on all correspondence regarding these applications.

Sincerely,

Greg Sullivan, M.S., E.I.T.
