RE: Water Appropriation Permit No. 69-7102

Notice of Intent to Void Permit

Dear Permit Holder:

On June 20, 1991, IDWR issued permit no. 69-7102 authorizing you to develop a right for domestic use, at a guard station known as Bear Work Center, from a spring in the amount of 0.02 cubic feet per second. I have enclosed a copy of the permit for your reference.

On May 20, 1999, IDWR staff tried to reach a final resolution for permit no. 69-7102 and concluded that the Forest Service would like to hold any action on permit no. 69-7102 until the courts had made a decision regarding water right no. 69-10279 which appears to cover the uses proposed under permit no. 69-7102. The conversation that IDWR based our conclusion on was documented in the attached memorandum.

In 2003, the courts decreed water right no. 69-10279. At this time it appears that no additional beneficial use was developed in accordance with permit no. 69-7102, and the permit should be relinquished by the Forest Service. A relinquishment form has been enclosed for your use.

If your completed relinquishment form is not received within 90 days, IDWR will prepare an order voiding the permit. If you have any questions, please contact me at (208) 287-4947.

Respectfully,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau
