RE: Review of Beneficial Use Field Report for Permit 37-22624 (Indian Creek Ranch Owners Assn. Inc.)

Dear Mr. Tuthill:

The Idaho Department of Water Resources (IDWR) is reviewing the beneficial use field report that you submitted on May 15, 2011 for permit 37-22624 (permit) that authorizes the diversion of 1.0 cfs to aesthetic, recreation, and wildlife purposes. Thank you for your report.

During my review, I noticed that the annual volume section on your report was left blank. In order for IDWR to issue a license for the permit the annual volume must be reported.

Please provide the amount of water that the permit holders are diverting annually within 30 days. In addition, please provide justification for your calculations.

If IDWR does not receive the requested information within 30 days the beneficial use field report and the statement of completion will be deemed unacceptable, returned, and shall not be re-submitted until all the required information has been provided.

Please let me know if you have any questions regarding this matter. You may reach me at (208) 287-4944. Thank you for your time.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
