Re Water Right Permit No. 63-32262

Dear Sir or Madam,

IDWR is working on licensing a water permit associated with the Northstar Subdivision property in Canyon county. The permit is currently in the name of Intermountain Development Company, c/o Jim Carrie. The Department has information that the Idaho Banking Company is the current owner of this property.

A permit is personal property of the permit owner. It remains personal property unless it is assigned to a new owner (\$25 fee). In this case, IDWR has not been able to locate the permit owner. If you know how to contact that owner, you may be able to get the permit assigned to you. Then IDWR can issue the water license in your name. The license is the end product needed for continued use of this water on your land.

The license will be issued in your name if IDWR receives a completed assignment by June 1, 2012. Without an assignment, IDWR must issue the license in the name of the permit owner. In that case, a copy of the license will be mailed to you.

A license is real property attached to the land and owned by the landowner. If you cannot submit an assignment of permit, after licensing, you can update the license by completing the notice of ownership change required by Idaho law (\$25 for entire right, \$100 for portion of right). These forms are enclosed for your convenience: Assignment of Permit; Notice of Change in Water Right Ownership.

More IDWR information is available at www.idwr.idaho.gov. Thank you for your assistance and please call me at 208-334-2190 if you have any questions.

Sincerely,

Vicky Musc
Sr. Water Resource Agent
