

Conversation Memorandum

Permit #63-32602- Otter

From: J. Westra

Date: 03/13/12

RE: Licensing of Permit 63-32602

11/29/11 Dept. Letter

Governor Otter called to respond to the Department letter sent earlier by Steve Lester. The sliver of property in question is in fact owned by the Orin Holdings which is the residential developer to the north of the Otter property. The developer and the Governor have an agreement that Otter would maintain the property and utilize it. The property will be eventually be obtained by the Governor when phase 4 of the development (just to the north) is facilitated. The arrangement was based on the Governor letting the development utilize the excavated fill material from the construction of the large Otter pond. The Governor indicated the agreement was informal.

I asked the Governor to send us a letter discussing the arrangement as discussed above. This should be sufficient to show possessory interest in the property.
