PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 72-16704

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use (proof) form submitted for the above referenced permit. During my review of your proof and water right permit, I found that two conditions of this permit may not have been complied with.

Condition no. 4 of this permit which states:

"Prior to diversion and use of water under this right, the right holder shall provide a means acceptable to the Department to measure the amount of water entering the reservoir and the amount of water released from the reservoir."

Condition no. 6 of this permit which states:

"Prior to diversion and use of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion."

I recommend these conditions be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office, or at the Department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Southern Regional Office of the Department in Twin Falls, Idaho 208-736-3033.

Sincerely,

A handwritten signature in black ink that reads "Darla Block". The signature is fluid and cursive, with the first name "Darla" and the last name "Block" clearly distinguishable.
