RE: 63-11723, 63-11724, 63-11745, & 63-33331 PERMITS SUBJECT TO LICENSING

Dear Kelly

I am reviewing your permits for licensing purposes and I need to confirm some information. Permit 63-11725 is listed with Richard Elliott as the current owner. Do you now own the property in question? If so an assignment of permit would be necessary. If not are you still farming the property? Permit 63-33331 has a permit due date of May 1, 2012. While you may have submitted proof of beneficial use it has not shown up on the electronic data base side. If you have not submitted proof yet then it probably should be submitted as soon as possible. We can discuss this in greater detail if you can give me a call.

In the aerial photo clip enclosed I have outlined the four parcels associated with each permit.

After resolving the ownership and proof of beneficial use fee issues, the next step in the process toward licensing the permits is for the department to verify to what extent the elements of that permits have been met.

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail.

You may also reach me by e-mail at the address shown below.

Sincerely

Kelly K Christensen
Sr Water Resource Agent
Western Region
