RE: Water Right No. 37-20550, 37-20551, 37-20554, and 37-20555

### Notice of Pending Order to Void Permit

Dear Permit Holder:

On November 18, 2004, the Department of Water Resources (IDWR) received the Proof of Beneficial Use statement submitted by Charles E. Hill for Permit 37-20550, 37-20551, 37-20554, and 37-20555, which authorized the diversion of water at individually described points of diversion in Camas County.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that all the requirements for establishing a water right were met. No water right license can be issued, however, if the development authorized by the permit did not occur within the authorized time period. For that reason, before issuing a license IDWR must conduct an examination to verify the development. On June 27, 2012, I completed two other field examinations for Black Butte Hills LLC, and had scheduled time out to also complete 37-20550, 37-20551, 37-20554, and 37-20555 during that same day. Rod Gonsales (my contact person for the beneficial use field examination) requested that we reschedule those exams for another time. Detailed maps and water right reports have been mailed to Rod Gonsales to assist him in recognizing the location for each place of use and point of diversion, and assist with the completion of these exams.

I will be that area again on August 8 – 9, 2012, and then again August 21 – 22, 2012. If you believe a water right was developed in accordance with the permit, please contact me to make arrangements for a field examination to be conducted on your property. If I do not hear from you within (30) thirty days, I will assume you no longer have any interest in establishing a water right, and I will **take action to VOID permits 37-20550, 37-20551, 37-20554, and 37-20555.**

Please contact me by telephone at (208)287-4820 or via email: [sandy.hemenway@idwr.idaho.gov](mailto:sandy.hemenway@idwr.idaho.gov)

Respectfully,

Sandy Hemenway  
Sr. Water Resource Agent
