RE: 63-11752 PERMIT SUBJECT TO LICENSING

Dear Glenn

I am reviewing your permit for licensing purposes and I need to confirm some information. First being, is the system as permitted still active? In reviewing ownership it appears that a majority of the permitted POU is now owned by Donald Roberts. Last December I sent him a letter regarding this permit but did not receive any response.

Information in the file indicates that the intent was to drill the supplemental well near or on the parcel now shown in tax lot information as your parcel. Before a license can be issued, a number of details need to be resolved; however a letter is not the best forum for finalizing a recommendation. If the permit is to move forward to licensing I would like to meet with you and/or Donald at the property to finish the review.

A phone conversation would probably be the best method to initiate the review process to determine who should be involved and if the permit should be assigned to Donald or not. You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail. If there is no communication by May 18, 2012 I will assume that the permit is no longer utilized and proceed with lapsing the permit.

You may also reach me by e-mail at the address shown below.

Sincerely

Kelly K Christensen

Sr Water Resource Agent

Western Region
