RE: PERMITS SUBJECT TO LICENSING 63-11750 AND 63-11875

Dear Sir

I have pulled the two permits for licensing purposes. In reviewing the two files it appears that they share a common point of diversion, therefore I am processing them together.

J Martin Norris was identified as the contact person for 63-11750 and Douglas Norris was identified as the contact person for 63-11875. The department has tax lot information that indicates that a portion of the property is owned by Clinton Norris (see attached ownership map). That map shows the permitted POU the tax lot ownership and which permit is associated with the respective 40-acre tracts. After resolving the ownership issue, the next step in the process toward licensing the permits is for the department to verify to what extent the elements of that permit have been met.

As both permits are supplemental groundwater rights the primary issues is to confirm the well capacity, the method of delivery, and the current acreage irrigated within the 40-acre tracts. Much of this can be accomplished through an office visit and reviewing aerial photography.

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail.

You may also reach me by e-mail at the address shown below.

Sincerely

Kelly K Christensen
Sr Water Resource Agent
