Subject: Water bank application maps
Attachments: 2186 2012 water bank map.pdf

Monica,

I've attached a map we put together for the water bank application for 02-2186. Before we get going on the others, I wanted to make sure something like this is acceptable. Also, with regard to 02-2262, because of its permissible place of use and digital boundary, is a map required for this right?
