RE: 63-11670 PERMIT SUBJECT TO LICENSING

COPY

Dear Clinton

I have pulled this permit for review for licensing purposes. The first issue is to determine the ownership of the property and how it relates to the permit. I found that nearly $\frac{1}{2}$ of the permitted POU is apparently owned by DBM Development. Have arrangements been made to share the well for both ownerships? This will have a significant impact on how the permit is ultimately split and/or licensed.

After resolving the ownership issue, the next step in the process toward licensing the permit is for the department to verify to what extent the elements of that permit have been met.

I have included an aerial photo clip of the permitted area with ownership outlined as I understand them to be.

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail. It may be beneficial to have a meeting at my office to review the permit in conjunction with the available aerial photos.

You may also reach me by e-mail at the address shown below.

Sincerely

Kelly K Christensen
Sr Water Resource Agent
Western Region
