Mr. Clinton Wissel  
15451 Midway Rd.  
Nampa, ID 83651

Re Permit No. 63-~~11760~~ 11670

Dear Mr. Wissel:

We are in the IDWR field season and this letter is to request that you call me to schedule a field exam for your drought well drilled in 1992. You currently have a permit to use the well to supplement your Pioneer Irrigation District shares. The exam should not take more than an hour and is required by Idaho law. Then the permit can be licensed at which time it becomes a water right.

You also received a letter from Water Resource Agent Kelly Christiansen; however, this permit has been reassigned to me. I attempted to reach you by telephone a few times at the 208.466.1606 number I receive a noise that sounds like a fax machine.

Please call me by May 14, 2012, to set an appointment for the exam. If I do not hear from you, the permit will be. Thank you.

Sincerely,

Vicky Music  
Sr. Water Resource Agent
