

MEMORANDUM

Date: July 11, 2012
To: Transfer 77947
From: dkidman
Re: Transfer Analysis

This transfer proposed to rearrange the place of use for water rights 31-2335D, 31-2365D, 31-7034T and 31-7293K. The end guns will be removed from the pivot in order to bring the total acres to the authorized 66 acres of the rights.

Authority to File:

The applicant is the owner of the land is the recorded water right owner. Clark County taxlot data confirms ownership of the property.

Water Right Validity:

All of the rights were decreed in the SRBA in February 2002. Acres have been actively irrigated since that time. Forfeiture is not an issue.

Injury to Other Water Rights:

Injury to other water rights does not appear to be an issue. The rights are located in Row 29, Column 170 of the ESPA Boundary. No changes will be made to the POD therefore the ESPAM analysis is not required. Watermaster for Water District 110 does not oppose the transfer.

Enlargement of Use:

No enlargement found.

Local Public Interest:

No issue identified.

Beneficial Use/Conservation of Water Resources:

No issue identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

The application has been advertised in The Post Register which resulted in no protests filed.
