WATER RESOURCES
WESTERN REGION

Amended
STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 03-33615

1. Name of applicant(s) Shaun and/or Leah Henry Phone 585-6015
Name connector (check one): ☐ and ☐ or ☒ and/or

Mailing address: 21941 Lansing Lane City Middleton

State ID Zip 83644 Email: leah@henryranch.net

2. Source of water supply ground water which is a tributary of n/a

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
4N	2W	16			NE	NE	Canyon	ground water	Lemp Park Urban

4. Water will be used for the following purposes:

Amount 5 af for irrigation storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

Amount 5 af for irrigation from storage purposes from 3/1 to 11/15 (both dates inclusive)
(cfs or acre-feet per year)

Amount 1 for stockwater storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

Amount 1 for stockwater from storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) 6 acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 1/2 hp above ground pond pump with 1 1/2 inch input pipe and 1 1/2 inch output pipe into 1/2 inch sprinklers

b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is N/A inches; proposed depth of well is N/A feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? N/A; drilling firm N/A;
Well was drilled for (well owner) N/A; Drilling Permit No. N/A

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. N/A

b. Stockwatering; list number and kind of livestock. 2 Beef Cattle, 2 Pigs, 12 Turkeys, 50 Chickens

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. N/A

d. Domestic; show number of households 1

e. Other; describe fully. _____

L.H. / S.H. 7/2/2012

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
04N	02W	16	1																1
			S																

Total number of acres to be irrigated: 1

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Canyon County Water Company provides 2 shares. Because we had to raise the home out of the flood plane and drastically change the slope of the property, we cannot adequately flood irrigate from ditch. We need to irrigate with sprinklers from our pond using a pump.
10. a. Who owns the property at the point of diversion? Shaun and/or Leah Henry
- b. Who owns the land to be irrigated or place of use? Shaun and/or Leah Henry
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A
11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. We will continue to purchase each year our 2 shares from Canyon County Water Company. Additionally, we seek a permit for a 1 acre share to irrigate with ground water from the pond using a pump/sprinklers and provide stockwater to our 2 beef cattle, 2 pigs, 12 turkeys and 50 chickens. When we built the home we were required to raise the home site out of the flood plane. This drastically changed the slope of the property causing us to no longer be able to effectively flood irrigate the property from the ditch. Additionally, 2 driveways have been built between our home and the main ditch creating much more challenging access to the water.
12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Re Application for Permit No. 63-33615

Dear Mr. and Mrs. Henry:

Thank you for submitting the additional information regarding your application for irrigation and stockwater uses from a pond. Based on your narrative describing the system, the application beneficial use terms and quantities must be amended. As a courtesy, I prepared the amended first page of the application. Only item no. 4 was amended to terms and quantities used by the Department for the uses proposed in the application.

Will both of you please initial and date this page and send the original back to me by July 13, 2012? If you have questions, you can reach me at 208.334.2190. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent

Re: Application for Permit No. 63-33615

Dear Vicky Music,
Below is the requested information regarding our Permit No. 63-33615.

1. The property I reside on is 2 acres. Only 1.5 acres is irrigated. 0.5 acres is irrigated using the well. I am requesting this permit to irrigate the remaining pasture area of 1.0 acres with groundwater from the pond. The pond dimensions are 50 feet wide by 90 feet long. The depth is 10-15 feet.
2. A well will NOT furnish any water to the pond.
3. The water shares will NOT directly provide water to the pond. However, when the water shares flow through the irrigation canal, the water level in the pond rises because the ground water saturation level increases. I do NOT directly use the water shares. As I stated in the application, I was forced to significantly change the grade of the property when I built the home to comply with floodplain requirements due to our proximity to the Boise River. I was told that I had to raise the grade of the home site, but could not bring in outside gravel/dirt because it would change the floodplain. Thus, I was forced to dig a pond to provide the gravel and dirt to raise the home site and create a driveway. It is not feasible to flood irrigate the property from the irrigation canal because of the change in grade. Additionally, the irrigation ditch is not on my property but rather 50 feet away from the property line. Since my home was built, two driveways have been built between the pasture area that needs to be irrigated and the ditch, creating a financial impossibility for me to access the ditch. Also, the ditch does not have water flowing in it daily. The ditch is a private lateral off the main canal. It is not maintained by the ditch company. It only has water in it when one of the seven property owners irrigates their property by opening the gate at the main canal which is a ½ mile from my home. The private lateral ditch **cannot** have water in it daily for me to irrigate with sprinklers because it floods the home of the last property owner on the private lateral. In fact, the private lateral cannot have water in it unless it is being used to flood irrigate because the last home owner on the lateral is flooded. This occurred one time when a property owner higher up on the canal over irrigated, and the property owner at the end of the lateral was not pleased. I simply cannot use the ditch for sprinkler irrigation because it is not a consistent source of water, and if I made it one by walking a ½ mile each day to open the gate to the main canal, it would flood our neighbor daily. Thus, I want to use a sprinkler system in the one acre pasture area and provide the water for the sprinkler system through a pump from the pond that I had to dig to build the house.
4. The stock will NOT drink from the pond. Stock is watered through stock troughs.
5. I do NOT refill the pond. The pond has year round water in it from ground water.
6. Three larger scale maps are included per your request.

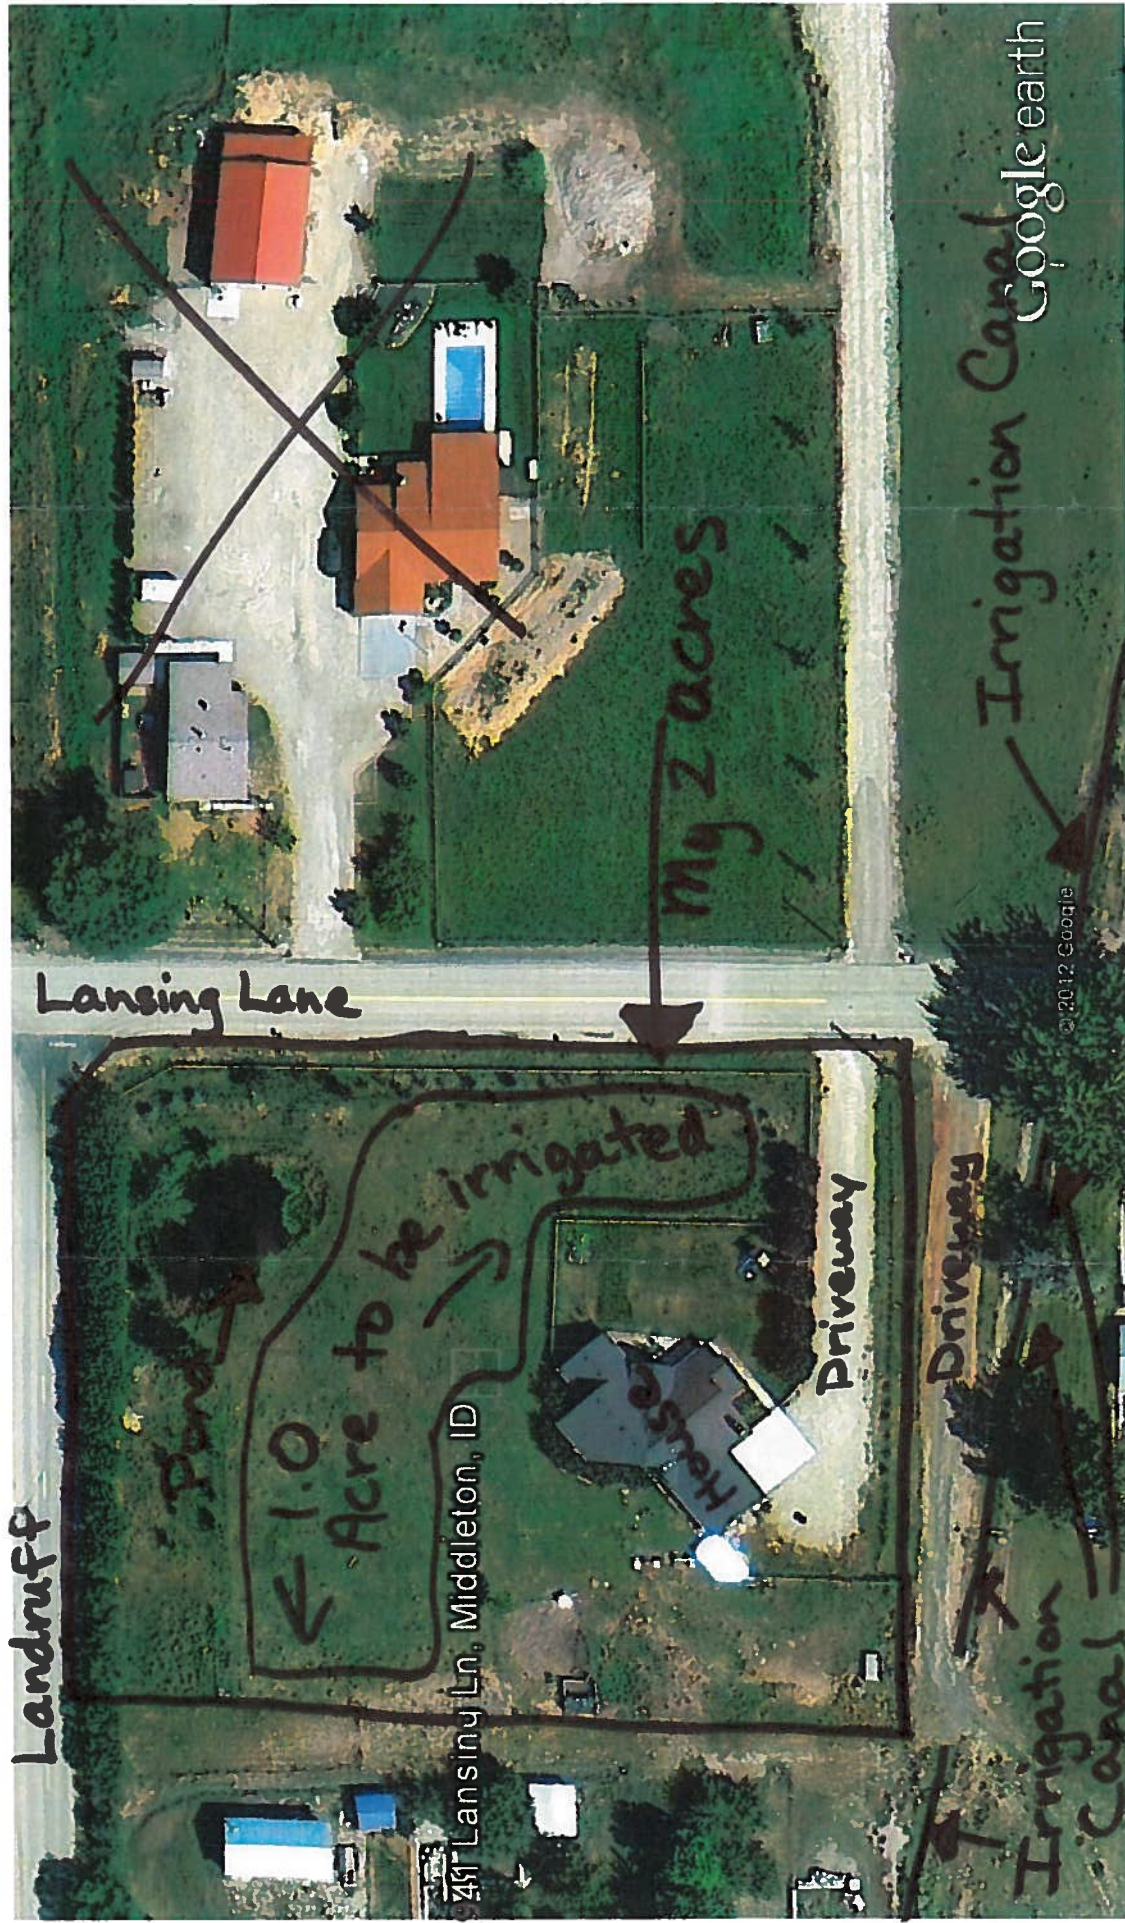

Sincerely,

Leah Henry

Re Application for Permit No. 63-33615

Dear Shaun or Leah Henry,

The application you filed for an irrigation and stockwater pond has been assigned to me for review and processing. More information regarding the pond system, dimensions, source and refill before processing can continue. Also, the application may require that you amend the original in the IDWR office but first I have to evaluate the information you provide in response to this letter. Please answer the following:

- Provide the pond dimensions and depth;
- State whether a well will furnish any or all water to the pond;
- Your application states that you cannot adequately flood irrigate using the Canyon County Water Co. shares. Please describe if and how you use your shares and whether the shares will provide water to the pond;
- State whether the stock will drink from the pond or if there will be a diversion to stock troughs; and,
- Will you refill the pond? If so, what is the water source?
- Please provide a larger scale map of your lot with the pond, point of diversion from the source and the acre to be irrigated.

Please provide the requested information, or a request to delay processing for up to 6 months, in writing by April 27, 2012. IDWR will void or reject the application without a timely written response. Fees are not refunded for voided or rejected applications. Call me at 208-334-2190 after you review this letter if you have any questions. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
