

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
BENEFICIAL USE FIELD REPORT

A. GENERAL INFORMATION

Permit No: 37-8935

Exam Date: 5/29/2012

1. Current Owner: US DEPT OF INTERIOR
BUREAU OF LAND MANAGEMENT
400 WEST F ST
SHOSHONE ID 83352
(208)732-7200

2. Accompanied by: Field exam completed in house.

- | 3. <u>SOURCE</u> | <u>TRIBUTARY</u> |
|------------------|----------------------|
| SPRING | EAST FORK ROCK CREEK |

B. OVERLAP REVIEW

1. Other water rights with the same place of use: 37-20123 (Federal Reserve Right); 37-8231 (stockwater storage)
2. Other water rights with the same point of diversion: 37-20123

C. DIVERSION AND DELIVERY SYSTEM

1. LOCATION OF POINT(S) OF DIVERSION:

SPRING L2 SE1/4NW1/4NW1/4 Sec. 10, Twp 01N, Rge 17E, B.M.
BLAINE County

Method of Determination: Point of diversion determined by using 2009, 2011 aerial photography, 2010 Bing Maps satellite imagery and 2011 Google Earth satellite imagery. Point of diversion appears to be in Twp 01N, Rge 17E, Sec. 10, SENWNW¼. See attached map.

2.

PLACE OF USE: STOCKWATER

[illegible]

PLACE OF USE: WILDLIFE

[illegible]

Method of Determination: Place of use determined by using 2009, 2011 aerial photography, 2010 Bing Maps satellite imagery and 2011 Google Earth satellite imagery. Point of diversion appears to be in Twp 01N, Rge 17E, Sec. 10, NENW¼ and NWNW¼. See attached map.

3. ☒ Map Attached Showing Location(s) of point(s) of diversion and place(s) of use (required). Scale must be 1:24,000 or greater.
- ☐ Aerial Photo Attached (required for irrigation of 10+ acres).
- ☐ Photo of Diversion and System Attached

D. FLOW MEASUREMENTS

1. Measurements: BLM personnel stated on the application for permit that the flow rate was estimated at 10 gpm.

E. FLOW CALCULATIONS

Measured Method:

Hazen Williams Full Pipe Flow Calculation (based on information provided by the BLM, distance derived in ArcMap and elevations estimated using Google Earth):

$$Q=0.432C_1D^{2.63}S^{0.54}$$

Where:

C_1 = roughness coefficient

D = Diameter in feet

S = Slope

$$S = 19' \text{ elevation drop} / 194' \text{ distance} = 0.097$$

$$C_1 = 140 \text{ (coefficient for polyethylene)}$$

$$D = 0.104' \text{ (1.25" polyethylene)}$$

$$Q = 0.04 \text{ cfs}$$

F. VOLUME CALCULATIONS ~~Not required under current beneficial use field exam rules.~~

Limit to 13,000 gpd.

G. NARRATIVE/REMARKS/COMMENTS

Permit 37-8935 is for 0.02 cfs stockwater and wildlife. Source is a spring referred to as Kent Canyon Spring tributary to East Fork Rock Creek.

Application for permit 37-8935 and proof of beneficial use, submitted by the US Dept of Interior, Bureau of Land Management were received on September 01, 2000.

Kent Canyon Spring is located approximately 8.3 miles west and 1.2 miles south of the intersection of Hwy 75 and Hwy 23 in Bellevue. Point of diversion is located in the SENWNW¼, and place of use is located in the NENW¼ and NWNW¼ of Sec.10, Twp 01N, Rge 17E. The trough system consists of a spring box, pipe, a trough and an overflow pipe. According to the application for permit, up to 430 range cattle, 4000 sheep and varying numbers of wildlife use the water source. Estimates used in the Hazen Williams Full Pipe Flow Calculation indicate the developed system is capable of delivering 0.04 cfs and information provided on the application for permit estimates the spring flow to be 10 gpm (0.02 cfs).

Overlap analysis indicates there is place of use and point of diversion overlap with water right 37-20123, a Federal Reserve water right pursuant to Public Water Reserve 107. PWR 107 rights are intended as in-stream stock watering. As such, condition 238 will be added to the license to clarify the relationship between the two rights. There is also a stockwater storage right, 37-8231, recorded in the NENENW¼, and the reservoir is visible on Bing Maps 2010 satellite imagery.

Recommend licensing a total of 0.02 cfs for stockwater and wildlife use.

Have conditions of permit approval been met? ☒ Yes ☐ No

H. RECOMMENDATIONS

1. Recommended Amounts

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>
STOCKWATER	01/01 to 12/31	0.020 CFS
WILDLIFE	01/01 to 12/31	0.020 CFS
<u>Totals:</u>		0.020 CFS

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None

☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other
