**Subject:** IDFG Comments-Water Right Application 73-12203

Dear Sharla and James:

The Idaho Department of Fish and Game (Department) has reviewed Application to Permit No. 73-12203 submitted by Mr. Kevin Yelton seeking to appropriate 0.05 CFS of water for irrigation and stockwater uses. Mr. Yelton claims the water is derived from a "spring" source. Based on our initial review of the area the Department believes it is more appropriate to classify the water source as "waste water."

Thank you for the opportunity to review this water right application prior publishing the notice.

Sincerely,

Tom P. Bassista  
Environmental Staff Biologist
