Denise,

There was never a refund issued for this receipt. Please just send a request for refund and we will get it done. Make sure to include the address where the refund needs to be sent.

Thanks,
Sascha

Sascha,

The original application was taken in 2008 by Nate Arave, which has not been for three years, so there is no paperwork....at all. There is no file at all. The application was entered and set as a draft. It has been sitting in limbo for 4 years.

I don't want to use this receipt if a refund was issued. This is a weird situation.

Denise,

If there was a refund issued it would show at the bottom of the receipt. However, sometimes that step gets missed so I checked our database to see if a refund was issued and I didn't find one. Do you have something in the file that indicates a refund was requested by someone in the office?

Sascha

Subject: Receipt E034195- 6/30/2008

Sascha,

Today I received an application for permit with Receipt #E034195 dated 6/30/08. After researching the receipt, I found that the Tracy's filed a change of ownership (COO) for WR's 74-179C, 74-4006, 74-180B on 6/30/2008. The COO's were done on 7/1/08 and resulted in splitting all the rights which explains the fee of \$300 (\$100 per right for the splits). The COO's were 'undone' on 6/28/10 and based on an agreement in the SRBA.

Since the rights were involved in the SRBA, no fee would have been required for the COO's, if they could have been done. So, the State has had the Tracy's \$300.00 for four years. What I need to find out is if there was a refund issued for the above mentioned receipt. I am not sure how that is done and hope you can help.

Thanks,

Denise Kidman
