Please print or type. Attach pages with additional information. Instructions are on the back of this page.

Incomplete forms will be returned.

1. Water Right Number(s) _____
Adjudication Claim Number(s) _____

2. The following **REQUIRED** information must be submitted with this form.

A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE, or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.

AND

B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually on file with the county.)

OR

C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency (formerly ASCS) AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.

3. Name and Address of Former Owner/Claimant(s) SHIRLEY PACKER

2993 AVENIDA DE SUEÑOS SIERRA VISTA, AZ 85650

4. New Owner/Claimant(s) FLOYD P. ADAMS & LORRAINE S. STEWART

Name connector (Check one): ☐ AND, ☐ OR, ☐ AND/OR

New Mailing Address HC 85 Box 187

City, State and ZIP Code BROWER, ID 83604-9710

New Telephone Number (208) 834-2403

5. Date you acquired the property 03-23-99

6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.

MICROFILMED

Number of acres actually irrigated _____ Number and type of stock JUN 09 1999

Diversion rate in CFS _____ Number of homes _____ Other uses _____
cubic feet per second

If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner/Claimant(s) Floyd P. Adams Date 22 March 99

Lorraine S. Stewart Date 22 Mar 99

(Corporations or other organizations must submit a list of directors/officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: If you are represented by an attorney and you want IDWR to correspond directly with your attorney for all matters related to your claims, please attach a Notice of Appearance completed by your attorney.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Permit To Appropriate Water

NO. 57-07632

Proposed Priority: October 18, 1996 Maximum Diversion Rate: 0.38 CFS

This is to certify, that **SHIRLEY PACKER**
2993 AVENIDA DE SUEÑOS
SIERRA VISTA AZ 85650
has applied for a permit to appropriate water from:
UNNAMED STREAM tributary of **SNAKE RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	0.38 CFS

LOCATION OF POINT(S) OF DIVERSION: Lot 6 (SWNE), Sec. 32, Township 05S, Range 04E
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
05S	04E	32	Lot 6 (SWNE)	19.0		19.0

Total number of acres irrigated: 19.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 2001.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

Department of Water Resources**Permit To Appropriate Water**

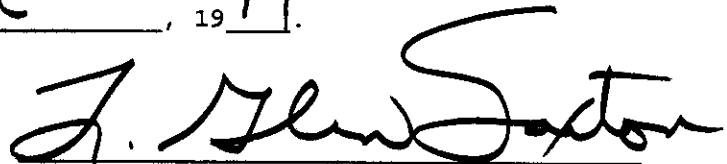

NO. 57-07632

CONDITIONS OF APPROVAL AND REMARKS

7. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
8. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
9. The Director retains jurisdiction over this right and may change, add, or remove any requirement as determined to be appropriate.
10. Water shall not be diverted under this right when flows in the Snake River are below established minimum flow amounts at any of the following locations: Weiser, 4750 cfs; Johnson Bar, 5000 cfs; Lime Point 13,000 cfs.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

14th day of April, 1999.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-07632A

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant

RE: Permit No. 57-7632A

Dear Permit Holder:

Enclosed is a copy of your Request for Extension of Time you submitted to the department in connection with the above referenced water right. In order for the department to take action on the extension request, it must be accompanied by a \$50.00 filing fee.

Therefore, please return the enclosed copy along with the filing fee, addressed to my attention. It is important that I receive your filing fee before the proof of beneficial use deadline of **APRIL 1, 2001**, to avoid affecting the priority date of this permit.

Also, I understand you only need an extension to April 10, 2001. The minimum extension I can grant would be for 1 year. If possible, I would like to talk to you about this extension. It might be that you have completed your diversion and should be filing a proof of beneficial use.

If you do need to file an extension, I will need more details in the first blank paragraph, explaining the work you have performed on the construction of your irrigation system, and a total cost you have incurred. I also need to know why you have been unable to complete the remainder of the work, which is the second blank paragraph on the extension form. Please complete these portions of the Request for Extension form and return it to me with your filing fee.

Please contact me at (208)327-7953 if you have any questions regarding this matter.

Sincerely,

MICROFILMED

MAR 29 2001

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (**evidence of delay must be submitted with the request**), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (**evidence must be submitted with the request**).
- When the water project is of a large scale — storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (**reason for request must be submitted**).

A non-refundable filing fee of \$50.00 must accompany the Request for Extension of Time form.

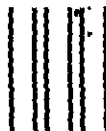

NOTE that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.

PROOF DUE NOTICE

RE: PERMIT NO. 57-7632B

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

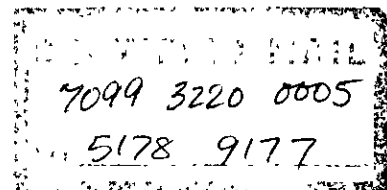

Sincerely,

Deborah J Gibson
Administrative Assistant
Water Allocation Bureau

RE: Payment for Assignment of Permit 57-07632B

Dear Shirley:

I just got word today that your check for the Assignment of Permit filing fee that you wrote on April 27, 1999 was received at our Western Region office on May 3, 1999 but for some reason did not get processed until today.

We did receive a check from Mr. Adams but it was returned to him as the matter of your *in transit* check was still unresolved.

Your check was deposited today and the receipt is enclosed. I tried to reach you by telephone today to explain what had happened and failing that decided that a letter was the next best thing.

If you have any questions about this, please call me at 208-327-7941.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Kari Lynn Townsend'.

RE: Assignment

Shirley Packer submitted an assignment for this right without a fee some time ago. After that, some confusion occurred regarding payment of the \$25.

It was brought to my attention today that a check for \$25 had been received at Western in early ^(5.3.99) May, but no relevant info was associated with the check. Usually staff is quite successful in solving these mysteries. However, in this case the missing connections were not made.

The check languished among other loose ends at the Region until today. The check has been receipted and the matter is forwarded to S.O. for completion.

RE: PARTIAL ASSIGNMENT OF PERMIT 57-07632

Dear Mr. Adams & Ms. Stewart:

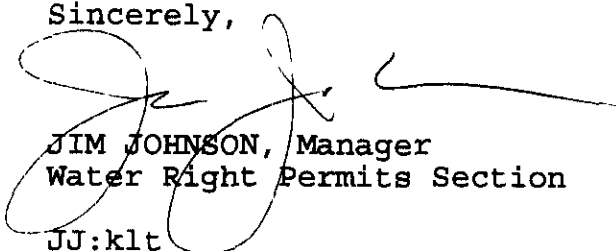

We acknowledge receipt of the correspondence changing ownership of a portion of the above referenced water right to you. Your portion of the permit has been renumbered to **57-07632B**. We have modified our computer records to reflect this change in ownership. A computer generated report is enclosed for your information.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

MEMORANDUM

DATE: May 20, 1999

TO: FILE 57-07632B

FROM: Kari Lynn Townsend

RE: General information

This memo is to offer information and clarification regarding the date of receipt of various documents in this file.

The following listed documents were received as a *single packet* of information and **only** the top document (Notice of Change of Water Right Ownership form) was date stamped (APR 12 1999) upon receipt at **Western Region**.

1. Notice of Change of Water Right Ownership
2. Assignment of Application for Permit
3. Warranty Deed
4. Exhibit A
5. Map

The water right file was received at SO on March 12, 1999, however the 5-piece packet as described above was not received at SO until **May 19, 1999** although it was received at Western Region on 4-12-99.

After discussion by Jim Johnson and Kari Lynn Townsend of all these details regarding receipt of documents and requests for filing fee the decision was made to waive the filing fee. Had the paperwork been handled by IDWR personnel in a timelier manner, there would have been no fee required in the first place as an Assignment of Application for Permit does not require a filing fee. The permit was not approved until 4-14-99.

Each of the five documents (itemized above) have been date stamped MAY 19 1999 upon receipt at SO.

RE: ASSIGNMENT OF WATER RIGHT NO. 57-07632

Dear Ms. Packer:

The assignment of the above referenced water right filing was received at this office on April 12. In order to complete the change in ownership for this water right filing, the \$25 filing fee is needed from you or the new owners. Please remit the payment to my attention at this office.

The application was recently approved. Right no. 57-07632 is now an approved water right permit.

Thank you for your attention to this final detail.

TO: File 57-07632

FROM: Kari Lynn Townsend

RE: Phone conversation

I received a phone call today from Lori Harris/Western Region office asking me to call Shirley Packer regarding a \$25.00 check that Mrs. Packer said she had sent to IDWR as a filing fee for an Assignment of Permit in the name of Floyd Adams. Lori said that they have no record of the check having been received at their office.

I called Mrs. Packer and was told that she wrote the check on April 27, 1999 to Idaho Department of Water Resources. She thought she had probably mailed it to the attention of Steve Lester as she was responding to his letter of April 20, 1999 requesting the filing fee.

I talked to Steve Lester and found that although the file was in the State office he had continued correspondence with her and did request that the filing fee be sent. He said he did not tell her who should send the money, just that the fee was required. Copies of his correspondence with Mrs. Packer are not presently in the file, however Steve said he would forward them to us.

After talking with Steve, I checked with Nancy Handzel in Fiscal and she searched the database and found no record of \$25.00 being received from Shirley Packer in 1999 either at Western or State office.

I called Mrs. Packer again and explained that we have no record of receiving her check. After a very amiable conversation she decided that perhaps the check is still in transit (having been mailed much later than it was written) or that it never got mailed at all. She will ask Mr. Adams to send the filing fee with the Assignment of Permit form and if her check ever shows up it can be returned to her.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07632

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

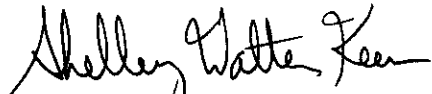

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

PROFILMED
APR 14 1999

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RECORDED

APR 14 1999

• 7 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 14 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

FROM: Shelley W. Keen ^{SUK}

RE: Application 57-07632

I need your help in determining if this application can be approved. The source is called an unnamed stream in the application. It appears from Dan Tomich's report to Steve Lester that the source is actually a drain constructed to channel water away from a spring arising on part of the applicant's property. Dan suspects that the spring's source is seepage from the Grand View Irrigation District Canal.

Under Water Appropriation Rule 45.02.d., a diversion from a spring for irrigation at the proposed location would be presumed to cause a significant reduction. Under Rule 45.03.k., such development would be presumed not to be in the public interest. Under Rule 45.01.e.iv., an application in conflict with the local public interest should be denied.

Is this the kind of appropriation that the rule is intended to prohibit? It seems to me that if the intent of the rule is to protect flows in the Snake River, then this application should be denied. One could argue, however, that seepage from the canal is not a "natural" spring and is, therefore, not what was contemplated when the rule was drafted.

Shelley,
The words "tributary springs" in rule 45.02.d was intended to mean the Thousands Springs area near Hagerman, not each water source which could be described as a spring up & down the Snake River.
It sounds like the source could even be wastewater if on the surface.

RE: APPLICATION FOR PERMIT NO. 57-07632

Dear Ms. Packer:

I received your last correspondence in late January. You indicated that you would like to proceed with the above referenced application and that you still own the property in Owyhee County.

Your letter was posted with the Arizona address and two telephone numbers: 520-803-1484 for Arizona and 702-322-6597 for an unidentified location. The address of record for the application is 1000 Barrington Way, Elko NV 89801 with no telephone number listed. I left a message for you at the 520 number on February 12 but have not heard from you.

Should the application retain the Nevada address and no telephone number or should it be changed? If changed, should it be the Arizona address and telephone number? Written confirmation is needed to make such a change.

I will assume that the application should include the current (Nevada) address and no telephone number unless I hear from you by March 12, 1999. The department can complete the application process and mail the decision to the address of record soon after that date.

Thank you for your help in clarifying this matter.

Sincerely,

Steve Lester
Water Rights Supervisor

RE: APPLICATION FOR PERMIT NO. 57-07632

Dear Ms. Packer:

Processing of the above referenced application for permit in which it is proposed to irrigate 19 acres near the Snake River is almost completed. A few processing issues have recently been resolved in your favor, allowing the application to move forward.

PLEASE MOVE FORWARD

Please confirm the following points at your earliest convenience:

1. Do you still own the property? If not, please contact the new owner to see if that party wishes to proceed with the application. If the new owner does want to proceed, you should assign the application to the new owner by completing and returning the attached form. A \$25 assignment fee would be required.

2. Do you have a telephone number in Nevada? The local number listed on the application (208-834-2165) is now serving another party.

Your reply within 30 days will be most helpful. Please let me know if you have any questions or need more information about the application process.

Sincerely,

Steve Lester

APP 14 1999

MEMORANDUM

Date: January 6, 1999
To: Shelley Keen
Via: Steve Lester *SL*
From: Dan Tomich
Subj.: Application 57-07632; Field Investigation, June 18, 1998

The source of the water is a drain constructed along the North side of the county road adjacent to the South boundary of the owner's property. The drain curves North on the West side of the owner's lane and enters the Snake River. The drain collects water from wet areas on the North side of the county road, and had a flow of about 1.0 cfs or more at the time of the investigation. The shape of the drain, and spoil piles on the West side are evidence that the drain was constructed sometime after development of the land.

The drain water is most likely seepage from the Grand View Irrigation District Canal just South of the county road, and from irrigated land to the South of the canal. The canal diversion is at C J Strike Dam, and splits into two branches about one mile below the dam. The lower branch is the one located along this county road, and the upper branch serves the land South and above the county road/drain. Since the drain is also located along the toe of the old river terrace - bench - it is possible that there were springs flowing into the river flood plain before development took place.

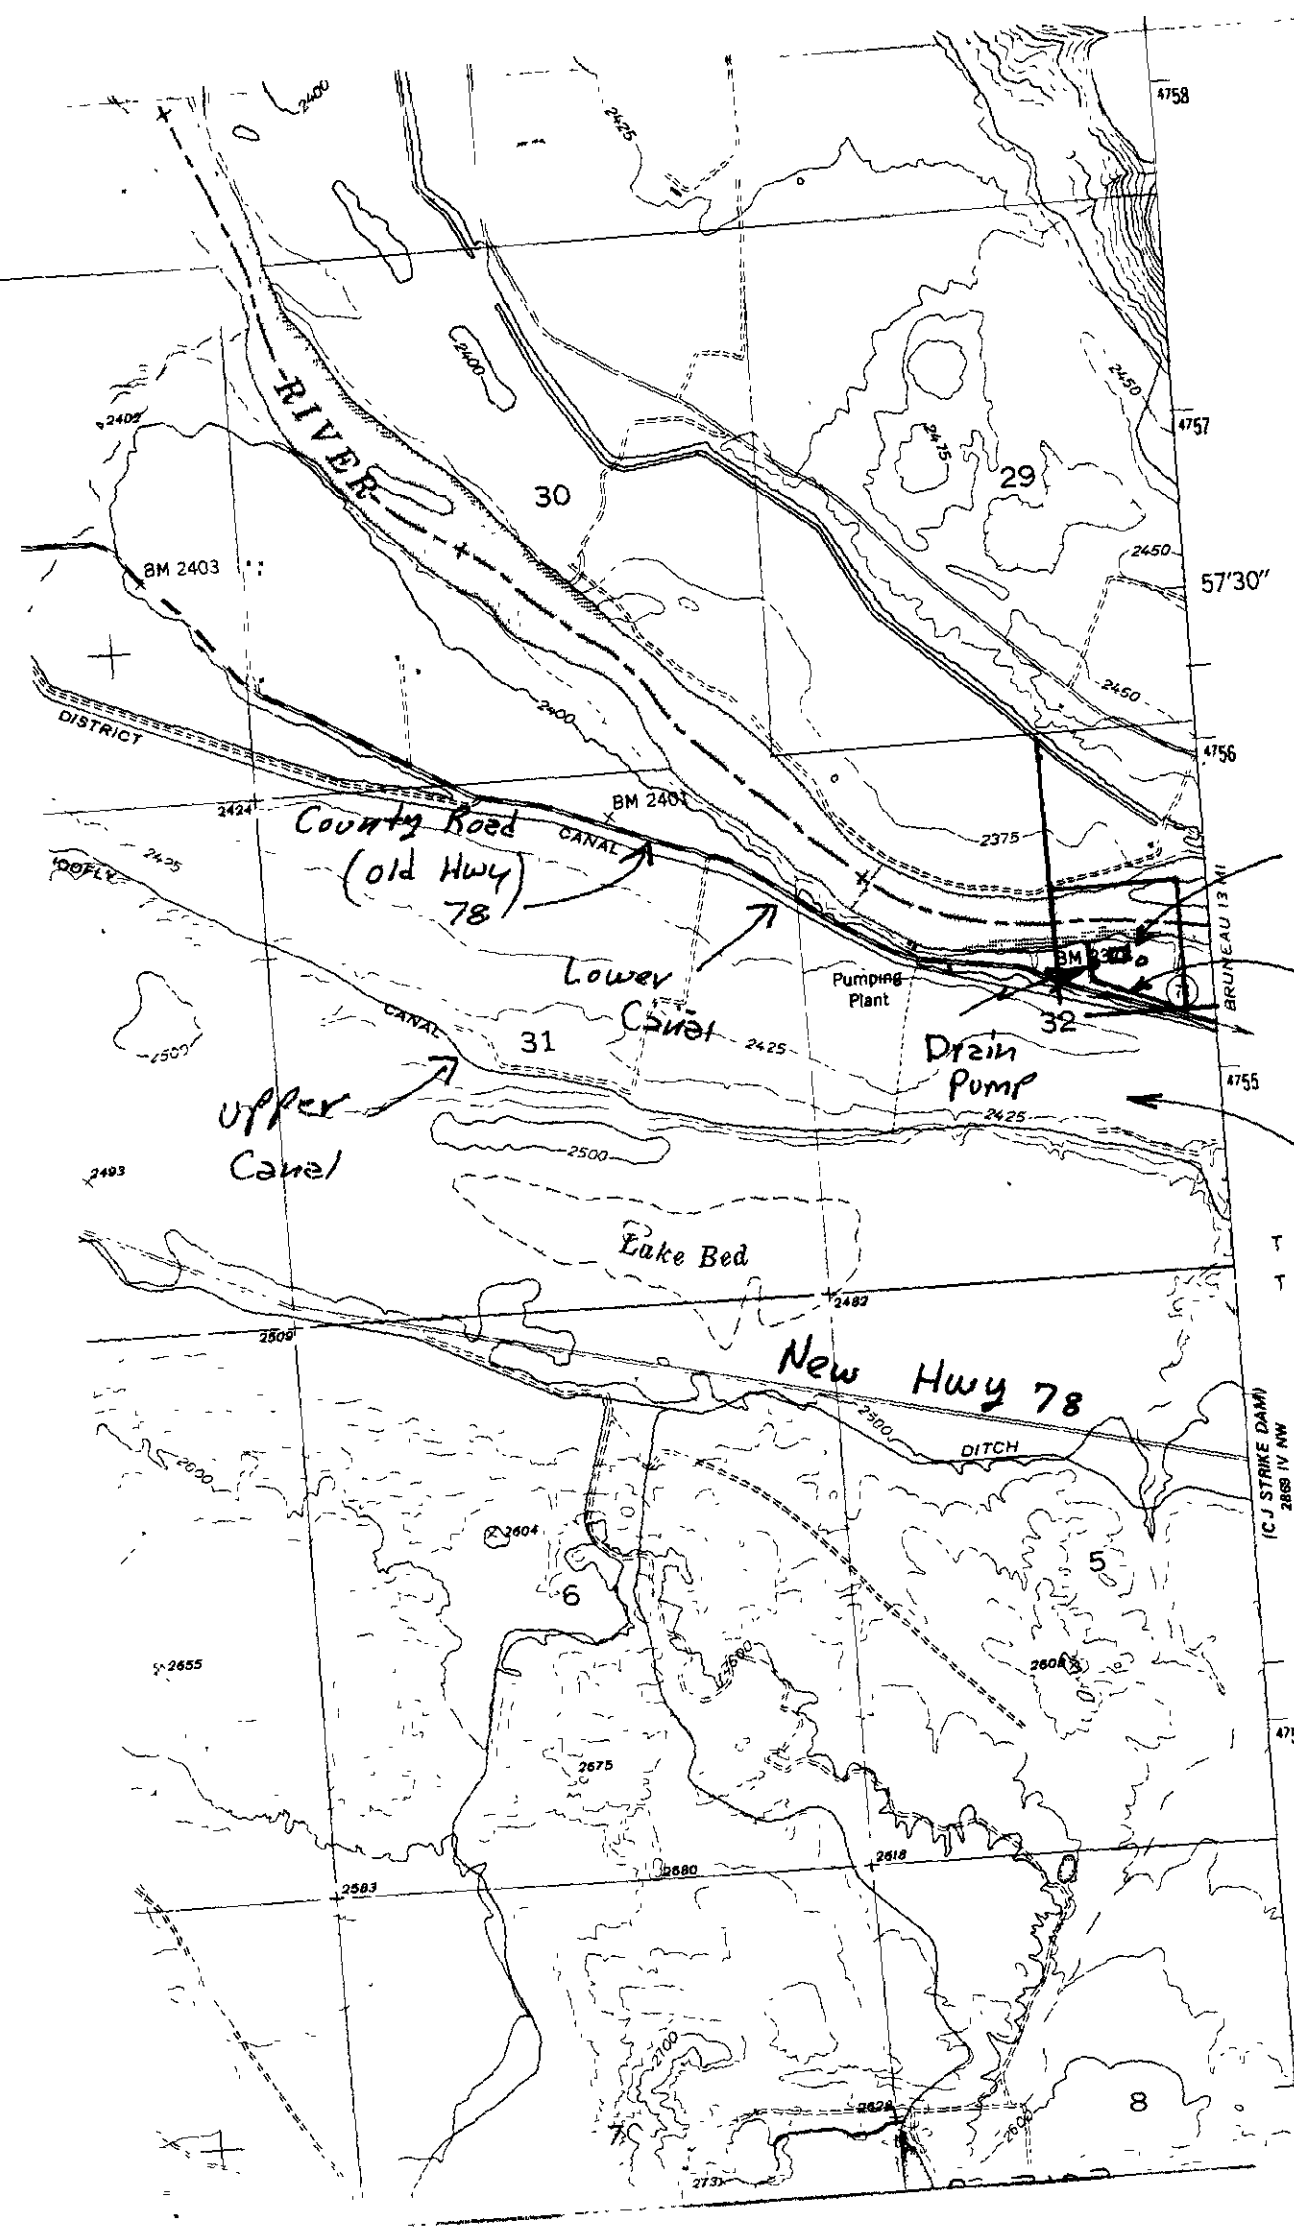

I was unable to contact Shirley Packer at the house phone, (208) 834-2165, or was there any phone listed under her or Willis Packer's name in Elko, NV. The house is for sale(ph. 363-0359), and appears to be in a caretaker status. The phone number listed in the application, 834-2165, has been assigned to another party. *

The owner, or someone, has already developed an irrigation system from the drain. A 1 HP pump unit supplies water through a 2" PVC pipe to a sprinkler system. The domestic well at the house also appears to have a sprinkler system. I was unable to determine if the two systems are interconnected for irrigation. The irrigation systems irrigate the yard, garden, and two small fields by the house; about 1.5 acres.

MEMORANDUM

DATE: May 27, 1998

TO: Steve Lester *SL*

FROM: Shelley W. Keen *SWK*

RE: Application 57-07632

As we discussed on the phone, I think it would be useful to collect more information about the source proposed for development by Shirley Packer on 57-07632. It's called an unnamed stream in the application, but given the location below the Grand View Canal Irrigation District Canal, I can't help but think that it might be a spring arising close to the river. I have attached a photocopy of the topographic map of the area.

Under Water Appropriation Rule 45.02 d, a diversion from a spring at the proposed location for irrigation would be presumed to cause a significant reduction. Under Rule 45.03 k, such development would be presumed not to be in the public interest. Under Rule 45.01 e.iv., an application in conflict with the local public interest should be denied.

By the way, Rule 40.01 a.ii includes the concept of a field review in application processing.

GARY -

*fall out from recent discussions w/
Shelley & Snake R. on trib. springs

Mitigation

Yes, I agree to accept a condition of approval on my application that will require mitigation related to fishery resources based upon a finding by the Director, Idaho Dept. of Water Resources. I understand that mitigation is not needed now but may be needed in the future. I also understand that the Director will not invoke this condition until I have an opportunity to participate in the process by which mitigation is identified and quantified.

GOVERNOR

KARL J. DREHER
DIRECTOR

February 4, 1998

DISTRIBUTION: Applicants whose water right applications were held without action pending fishery resources issues.

Dear Applicant:

You filed an application for permit to develop a water right that includes consumptive use (see attached profile report). This office was not been able to process such applications in your area until some water supply issues related to fishery resources were resolved.

A method to address these issues now exists. Applications that include consumptive use can be processed if applicants are willing to accept a condition of approval that can require mitigation at a later date if the need for mitigation is clearly documented. Mitigation can include steps such as purchasing storage water to offset adverse impacts to fishery resources that new water developments might cause.

Enclosed is a response form to be completed and returned if you want your application to be processed. To the extent possible given other factors, applications will be processed in the order in which they were filed.

Also enclosed is a withdrawal form. If you no longer have an interest in obtaining the water right outlined in your filing, please complete and return this form. You will receive a refund for the filing fee associated with the application.

Delays in processing due to department considerations such as those discussed in this letter do not affect the priority date of your application. Please contact this office at 334-2190 if you have any questions about your application.

Sincerely,

Western Region Allocation Staff
