Re: Notes in the File

---

There are a couple of sticky notes in the file that contain contact information that might be important so I am logging it all in one document:

-----  
7-15-10: (written by Corbin Knowles I think)

Brad Woolsteinhulm operates this farm: cell = 317-7469

Craig (Clark?) Daines will be in Montpelier on July 30 and would like to do that measurement at that time.

-----  
No date – Assumed April 2010: (written by Craig Saxton)

Clark Danes: 801-201-4483
