RE: Field measurement for 11-7151

Corbin Knowles received a call from the permit holder of 11-7151 asking if IDWR could conduct a re-measurement on their well. On 5-24-2010 IDWR did receive a field exam fee of \$250 to re-exam the system.

I spoke with Tim Luke and he agreed that Corbin could conduct the measurement this spring

Corbin said he would contact the permit holder to find out when he could conduct the measurement, and that I should hold onto the file.
