RE: Water Permit No. 92-10530

Dear Permit Owner:

The Idaho Department of Water Resources is in the process of reviewing Permit No. 92-10530 for licensing. We need additional information before we can proceed with this process.

It appears that your Application for Permit (92-10530) and a Notice of Claim to a Water Right (92-10562) were filed at essentially the same time for the same property. We need answers to the following questions before we can process this.

1. *Is the domestic use permitted under 92-10530 (surface water) for internal and external use? If so, what is the internal use?*
2. *If it is used for drinking, is there a filtration system in place? Or is it only used for washing laundry, dishes, shower, etc.*
3. *Is the surface water and well water used for the same purposes (internal and/or external)?*
4. *Is it used on the same ground or does the surface water irrigate a different part of the lawn than the ground water does? Do they overlap?*
5. *Is the well water claimed under 92-10562 for external use at all?*

Because the Department cannot proceed with licensing water permit 92-10530 without the additional information, we will hold any action on your license pending receipt of the necessary information. Please respond within 30 days so we may complete this process.

If you have any questions regarding this letter, please contact me at (208) 287-4942. Thank you.

Sincerely,

Jean Hersley
Technical Records Specialist I

Enclosures

*talked to Diane on
July 5, 2012, 92-10530
is ~~surface~~ for external use
only for lawn
we claim # 92-10562 is for
internal use. (groundwater)*
