MEMORANDUM

Date: June 25, 2012
To: Transfer 77888 File – Stevenson
From: Jeanie Robertson
Re: Evaluation of Sufficiency of Information Submitted

This transfer application proposes to dry up 7 acres in the SWNW Section 19, T01N, R19E and move 7 acres to the SWNE of Section 19. There is only one groundwater right, 37-7020, involved in this transfer which diverts 3.2 cfs and 480 af from an existing for the irrigation of 160 acres from an existing well. (It will fill in the corner of right 37-8003 where only 33 acres are currently authorized in the SWNE of Section 19.) Only the place of use is changing so no advertising is required. The fee was calculated on the 7-acre portion of the right. The approximate location of the place of use is 4 miles south of Bellevue and between $\frac{1}{4}$ – $\frac{3}{4}$ miles east of HWY 75.

- **Authority to File:**
The application was filed by Al Barker of Barker, Rosholt & Simpson LLP on behalf of John F Stevenson Jr. and Andrea S Ward. The application was signed by both applicants and indicated there was no lien holder on the property.
- **Water Right Validity:**
Right 37-7020 was recently decreed in the SRBA and the record has been moved over to water rights.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated. This area is currently being organized into a measurement district and soon measurement and reporting will be required.
- **Local Public Interest:**
No negative impacts anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Irrigation is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
