Michelle,

Are you available next Wednesday at 9:00 to discuss this – either by phone or we could meet – most anytime that day works also. BOR should have our info gathered by then. The dot location in your file is close. We have pictures that will show it better.

Subject: Permit 65-22723 POU

Ms. McGarry,

Thank you for agreeing to assist me in locating the information I need for licensing the permit 65-22723(power use). To aid our discussion I have attached a jpg file which is a screen shot from my computer, showing the place-of-use and point of diversion that IDWR has for this permit. The power permit is associated with the cross-hatched shape and the purple dot on the tailwater face of the dam.

As a first step in my review, I would like to confirm that at least these are correct.

Using this media I can also provide you with my contact information and establish a quick method for information exchange between us.

Sincerely,

Michele Edl
