The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Work completed: 1) 3 wells have been drilled for domestic potable water, 2) water storage tank has been constructed/completed and is in service, 3) main lines have been installed to service all of the project, 4) water system is in service and has been stubbed to all 205 entitled lots and is delivering water currently to some of the lots with homes completed Costing \$3,950,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

1) The national downturn in the real estate market and particularly the 2nd home market has had a devastating impact on demand for our lots. 2) The local market has similarly been negatively impacted and buyers are unable to obtain bank financing. 3) Until the Tamarack Resort is sold, there is so much uncertainty facing potential buyers of our lots that we do not expect demand to improve for several years.

Permit holder(s) request an extension to June 1, 2017.
