INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Fred Storer
Dubois, Idaho

Boise, Idaho,
January 2, 1930

Dear Sir:—

Under the terms of your permit No. 16850..... you are required to complete your diversion works on or before April 12, 1930. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. H. CARTER
Commissioner of Reclamation.

Dept of Reclamation.

Dear sir.

My permit No is 16850. I made my ditch. and after using water thru it several times the place changed hands. (that is the place where it comes out of the creek) a year ago he plowed my ditch in, saying he was going to make another. in the mean time letting me use water thru his ditch while there was flood water. this spring I made it again and a few days ago he plowed it in and said they was going to make it in another place and he turned water down another channel that comes out farther up the creek. but after the water gets a little lower I can't get water. That way as too much of it sinks before it gets to my ditch.

16850

When he turned the water
down the old channel it washed
my ditch out in several places.
Now what I want to know is
can I hold a ditch thru that
place and do I have to put up
with him turning the water
off and on just when it suits
him. I made the ditch and had
permission of the people that
owned the land at that time.
but if it isnt mine I am
not going to spend any more
money making proof.
If it is mine I am ready to
make proof.
How much water does my permit
call for.
Thanking you I am yours truly

Re: Permit No. 16850

MR. FRED STORER
Dubois, Idaho

Dear Sir:

Reference is had to your letter of March 29, outlining the difficulty you are having over a ditch right of way with adjacent landowners.

While the matter is entirely of a legal nature, it occurs to me that you should have some rights to a permanent ditch through the land in question. You do not say whether or not any contract for right of way was signed with the previous owner of the land.

My suggestion is that you should consult an attorney in the matter. Possibly he can, if you are entitled to ditch right of way, persuade the owners of the land to that effect.

The amount of your permit is 8.5 cubic feet per second of the waters of Medicine Lodge Creek. Proof of completion of works is due April 12, 1930.

Yours very truly,

Commissioner of Reclamation.
