LINDA K GIBSON

GARY L GIBSON

Dear Permit Holders:

The Department is in receipt of a Request for Extension of Time form (extension request) filed on May 7, 2012. Your extension request form was submitted requesting only 2 more years for completed development.

Your permit allowed an initial 5 year development period through June 1, 2012. After the initial 5 year development period, you are allowed only one extension request for up to 5 more years. Are you sure you only need 2 more years to complete the project and put the water to use?

If you would like to have a change made to your initial request so that you would have 5 more years in order to complete the project and put the water to use, please reply to my email stating that you would like to extend the time in which to submit proof of beneficial use to June 1, 2017. This would take you to the end of your ten year development period, after which the Department will not be able to grant another extension for due diligence.

If you have any questions, please contact me at 208-287-4945.

Sincerely,

Darla Block
