RE: PERMIT SUBJECT TO LICENSING 2-10292

I am reviewing your permit for licensing purposes and I need to confirm some information.

In the aerial photo clip to the right I have outlined, in red, what I understand to be the property associated with this permit. I have also marked the location of the pump that currently available information indicates.

The application for permit indicated that the system was intended to be a 1 HP pump and 1 inch line to the property. Is this the system developed? Is the application to the property through a sprinkler system or some other method?

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail.

You may also reach me by e-mail at the address shown below.

Sincerely

Kelly K Christensen
Sr Water Resource Agent
Western Region
