RE: Field Examination of Water Right Permit Nos. 37-8875 and 37-21400

Dear Mr. Purdy:

This letter is to confirm our appointment on Wednesday May 9th at 8:30 am. As we discussed on the phone, I will meet you at the Silver Creek convenience store.

During my visit, a measurement of the new well in connection with 37-8875 will not be necessary since the use is domestic as described in Idaho Code §42-111. However, I will need to confirm the location of the well that acts as the point of diversion for permit 37-8875 and I'll also need to confirm what homes are part of the place of use. I will bring a map with me on Wednesday where we can confirm the needed information.

In regard to permit 37-21400 for the city, it appears that there are two wells. I will need to take a measurement of both wells. I understand that one of the wells is for back-up purposes only and hope that it can be switched on during my visit.

Lastly, permit 37-21400 includes a service boundary for the city of Picabo as the place of use. I have attached a map that depicts the service boundary per Department records. If the service boundary has been updated, please provide the new boundary during our visit.

Thank you very much for your time and I look forward to our meeting on the 9th. If anything comes up you may reach me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
