RE: Permit No. 65-22958

Dear Mr. Gurney:

We received the Assignment of Application for Permit you recently submitted, however, 65-22958 is no longer an application but rather a permit. It became a permit in August of 2005. Enclosed is a proof report which contains all of the permit information. The department will be contacting you in the future to conduct a field inspection so that a final water right license can be issued.

In the meantime, I am returning the Assignment of Application for Permit to you and I have enclosed the correct form that you need to use in order for us to change the permit from your name to that of the homeowner association. Please note that there is a \$25 fee for the Assignment of Permit. Also, please be sure to fill out the part describing the arrangement for accessing the point of diversion and place of use since the homeowner association is not the actual owner of the property.

If you have any questions concerning this matter, please give me a call.

Sincerely,

A handwritten signature in cursive script that reads "Sharla Curtis". The signature is written in dark ink and is positioned above the printed name and title.

SHARLA CURTIS
Sr. Water Resource Agent
