MEMORANDUM

Date: May 10, 2012
To: Application for Permit 47-17577
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes permitting the storage of 0.7 acre feet of water from an unnamed stream in an existing reservoir. Place of use and point of diversion are located approximately 1.5 miles west and 3.5 miles south of Rogerson.

- **Effect on Other Water Rights:**
Proposed diversion is already in place and no other water rights are recorded within this 40 acre tract.
- **Sufficiency of Water Supply:**
Reservoir appears to be filled to capacity in 2011 and 2009 aerial imagery.
- **Application Made in Good Faith:**
Reservoir is developed and In use.
- **Financial Resources:**
Bureau of Land Management owns the point of diversion and the place of use. The system is already developed.
- **Local Public Interest:**
This small stockwater development will be advertised to notify the general public.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-203A Idaho Code or the Water Appropriation Rules (IDAPA 37.03.08) preventing processing of this application.
