RE: Water Right Permit No. 96-09473

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

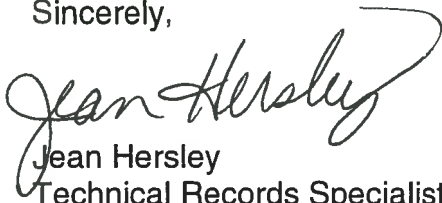

The previous amendment was incorrect. The correction is:

POU and POD are in Government Lot 8.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days. No fee is necessary.

The Department apologizes for the error and inconvenience. If you have any questions, please call me at 208-287-4942.

Sincerely,

Jean Hersley
Technical Records Specialist I
