Subject: Domestic use of water on Parcel # RP46N02W2567000A in Benewah County

Ms. Schrader,

The Department of Water Resources is in the process of reviewing your Permit to Appropriate Water # 92-10372 for licensing. However, on the maps available to us, we were unable to determine how you are using the domestic use for this property. A letter was sent to the Benewah County Assessor's office inquiring about the ownership and what kind of structure was on the property. The reply was that this parcel is "land only." Your application and Statement of Completion for submitting proof of beneficial use indicate one home. What kind of structure is located there for the domestic use?

If you could reply with an explanation on how this permit is being used, we will finalize your license. If you have any questions, please call me at the number below.

Thank you.
