RE: Water Appropriation Permit No. 37-8878

Notice of Pending Order to Void Permit

Dear Ms. Andrus:

On July 25, 2008, Department of Water Resources (IDWR) personnel conducted an examination to verify the water use developed under Permit 37-8878, which authorized you to establish a right to divert spring water for domestic use. The examiner reported that no beneficial use was established as authorized by your permit.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. A water appropriation permit authorizes development of a water right within a specific time frame. Under Permit 37-8878, development was to have been completed by October 1, 1999. No water right has been established, and no license can be issued, if you have not developed a beneficial use of water within the time period authorized by your permit.

I have received no response to my letter dated April 3, 2009. A copy of that letter is enclosed. Unless you supply information within thirty **(30)** days demonstrating that you have developed a beneficial use of water under Permit 37-8878, I will take action to void your permit. If you are no longer interested in your permit, you can shorten the voiding process by signing and returning the enclosed relinquishment form.

If you have any question, please contact me at 208-287-4949.

Respectfully,

Nicholas Van Dyke
Agent, Water Allocation Bureau
