The desire to span this beautiful river with a pipe and its associated footings, etc. will affect the view and consequently land values. It is inconsistent with conservation of recreation use, etc. He also would need to obtain a right of way to continue his pipe through other people's land.

(additional pages may be attached to describe nature of the protest)

Also, will this effect the original point of diversion?

7. What would resolve your protest? To keep point of diversion on South side of river.
He has two ^{or more} other viable options that don't include spanning river with an ugly pipe.
